

Geothermal Plus Inc. is leading the residential and commercial heating and cooling market in Peterborough and the Kawartha Lakes with our specialized expertise in GeoThermal.

At Geothermal Plus Inc., a team of experts will consult, design and install the right system for the individual customer's needs. We will guarantee quality work, and years of comfort and low energy costs to better serve our customers. Geothermal Plus Inc. stands behind our work as we come with years of experience and expertise in the field.

In addition to Geothermal heating and cooling, Geothermal Plus Inc. will assess other energy efficient solutions for your home including high efficiency furnaces/boiler systems, radiant in floor heating, heat recovery ventilation (HRV) or energy recovery ventilation (ERV), air conditioning and duct design and installation.

Looking for quality work, cost savings, along with quiet and comfortable, problem-free service? Geothermal Plus Inc. will exceed your expectations with our friendly team of experts.
